

Remote Work Policy

A fictional internal policy created for the Atlas knowledge assistant portfolio demonstration.

DOCUMENT OWNER	People Operations and Security
EFFECTIVE DATE	1 September 2026
VERSION	1.0
CLASSIFICATION	Internal

For demonstration only. This document does not describe a real company and should not be treated as legal, employment, security, or operational advice.

1. Purpose

This policy sets expectations for hybrid work, workplace safety, information security, and temporary work from another country.

2. Standard hybrid arrangement

Employees may work remotely for up to **three days per week**. Teams should agree on shared office days so collaboration, customer commitments, and operational coverage remain effective.

Availability

- Be reachable during the team's agreed core hours.
- Keep your calendar and working location current.
- Attend required in-person meetings with reasonable notice.
- Use approved collaboration and storage tools.

3. Home office equipment

Each employee may claim up to **\$500 per calendar year** for approved home office equipment. Eligible items include a monitor, keyboard, mouse, headset, desk, or ergonomic chair. Submit an itemized receipt through the expense system within 30 days.

4. Working from another country

Working outside the employee's country of employment requires **prior written approval from People Operations**. Submit the request at least 30 days before travel. Approval may be declined because of tax, immigration, employment, customer, or information-security obligations.

5. Security and privacy

- Use company-managed devices and multi-factor authentication.
- Use the approved VPN when required.
- Prevent household members and visitors from viewing confidential information.
- Do not print customer data at home unless Security has approved it.
- Report lost devices or suspected incidents immediately.

6. Health, safety, and review

Employees are responsible for maintaining a safe working space and reporting concerns. Managers may review a remote arrangement when performance, security, customer service, or team coverage is affected.

Quick reference

- Remote limit: up to 3 days each week

- Equipment allowance: \$500 each calendar year
- International work: written People Operations approval required
- International request lead time: 30 days
